

TREZOR

TERMS OF SERVICE

December 18, 2018

By using [SatoshiLabs](#) products, software, services or web sites you agree to the following terms and conditions.

The information contained in our official documents, materials or websites is for general information purposes only. The information is provided by SatoshiLabs. While we endeavor to keep the information up to date and correct, we make no representations or warranties of any kind, express or implied, about the completeness, accuracy, reliability, suitability or availability with respect to our materials or the information, products, services, or related graphics contained in our materials for any purpose. Any reliance you place on such information is therefore strictly at your own risk.

Our services are allowed to be used exclusively with [Trezor](#), a product of SatoshiLabs.

Every effort is made to keep our services running smoothly. However, SatoshiLabs takes no responsibility for, and will not be liable for, the services being temporarily unavailable due to technical issues beyond our control. In the event of our services being unavailable, you may use another Trezor compatible wallet recommended [here](#).

In no event will we be liable for any loss or damage including without limitation, indirect or consequential loss or damage, or any loss or damage whatsoever arising from loss of data or profits arising out of, or in connection with, the use of our services and products.

SatoshiLabs takes no responsibility for and will not be liable for any financial loss arising from the any of the following.

- Financial loss due to wallet data being "brute-forced".
- Financial loss due to forgotten mnemonics, passphrases and pins.
- Financial loss due to incorrectly constructed transactions or mistyped cryptocurrency addresses.
- Financial loss due to "phishing" or other websites masquerading as trezor.io and related websites.
- Financial loss due to corrupted data on our servers.
- Financial loss due to server failure or data loss.
- Financial loss due to server hacks or unavailability.
- Financial or data loss occurred through use of third party services or products recommended herein.

For further product-related rights and liability limitations please refer to the product that can be found here. SatoshiLabs is neither a bank nor a regulated financial institution. No bitcoins or other cryptocurrencies or any private information such as transaction comments or address labels are stored by SatoshiLabs and SatoshiLabs is not in any control of such information as we simply provide an interface to access them. SatoshiLabs does not have control over or take any responsibility for any transactions made through our services. Bitcoins or other cryptocurrencies are a money equivalent of which SatoshiLabs is not the issuer. SatoshiLabs makes no guarantees that bitcoins or other cryptocurrencies can be redeemed at the purchase price. Any exchange rates displayed are provided by 3rd party services and are not indicative of the Bitcoin or other cryptocurrencies being backed by any commodity or other form of money or having any other tangible value at all.
